DESCOIL Q.S.

DESCOIL Q.S. is a specialty Industrial grade Descalant for AC Coils. It is a scale remover product from **Cooling Towers, Boilers- Coils, Heat exchangers, Chillers, etc.**

PRODUCT DESCRIPTION:

It is beneficial for scale removal from **Water circulating systems, Heat exchangers, Chillers** etc in an efficient manner without any complication and wastage of time. It is easy to handle, harmless to equipment & personnel, Dissolves scales rapidly, Offers uniform descaling & Prolongs equipment life.

Method of Descaling

A prepared solution **of 3-10% of Descoil** has to be passed through the instruments & pipelines & circulated for 2-3 hours and flushed out with plenty of water. This is sufficient for complete & uniform descaling of the plant and water circulation pipelines.

Packing : Descoilq.s. is available in packing of 10/20/30 40/50/60 Kg
