## Advantage

- **Sterile-Fogg N is a wet Fog Technology for Critical area Disinfection Systems Designed**
- **Highly effective for the critical areas to Prevent microbial contamination Uniform Spread flow & Ultra low consumption of disinfectant to ensures Eco-friendly and reliable Mountainous in operation**
- **Compatible with all kind water based of Leading Disinfectant/fumigant solutions Generates Ultra-Fine Aerosols**

## Technical Features

- **High speed Motor drive, Maximum reliability and best performance.**
- **Mechanical timer for switch off.**
- **MOC of Disinfectant tank is Nylon, leak proof set, sturdy and rust free.**
- **Nozzle generates aerosol Micron size drops.**

## TECHNICAL SPECIFICATIONS

- **Aerosols** : **Micron Size**
- **Flow rate output** : **70 to 200ml/Minute (Adjustable)**
- **Sound Level db** : **80db@ 1 m Distance**
- **Spread & reach** : **UPTO 8000 Cubic Feet (LxBxH)**
- **Solution Tank Assembly** : **7 Litter Nylon 66**
- **Nozzle** : **Nylon 66**
- **Handle** : **Stainless Steel**
- **Blower head** : **Nylon**
- **Power supply** : **230V,50Hz**
- **Cable length** : **2.5 Meter**
- **Motor** : **28000 RPM/1000w**
- **Machine weight** : **5.0 Kg Portable (Appr.)**
- **Performance warranty** : **1 Year**
- **Phase** : **Single Phase**
- **Suction Tube** : **Silicon**
- **Mechanical Timer** : **60 minute**
