WORKS : Shop No. 13, Gr. Floor, Lake Archade, Bldg No. 3, Zar Complex, Waliv Naka, Vasai (E), Dist Palghar 401 208

Advantage

- **Sterile-Fogg S is a wet Fogg Technology for Critical area Disinfection Systems Designed As per compiles to sterile area norms**
- **Highly effective for the critical areas to Prevent microbial contamination Uniform Spread flow & low consumption of disinfectant to ensures Eco-friendly and reliable Mountainous in operation**
- **Compatible with all kind water based of Leading Disinfectant/fumigant solutions Generates Ultra-Fine Aerosols**

Technical Features

- **High speed Motor drive, Maximum reliability and best performance.**
- **External Mechanical timer for switch off.**
- **Disinfectant tank SS304 Grade, leakproof set, sturdy and rust free.**
- **Nozzle generates aerosol Micron sizedrops.**
- **Sterile-Fogg S used all Accessories and silicon tubes as per sterile area norms.**

TECHNICAL SPECIFICATIONS

- **Aerosols** : **Micron Size (Non-Wetting)**
- **Flow rate output** : **70 to 200ml/Minute**
- **Sound Level dB** : **80db@ 1 m Distance**
- **Spread & reach** : **UPTO 8000 Cubic Feet (L×B×H)**
- **Solution Tank Assembly** : **5 Litter SS Grade 304**
- **Nozzle** : **Nylon**
- **MOC & Hardware** : **SS 304**
- **Handle** : **SS 304**
- **Blower head** : **SS 304**
- **Power supply** : **230V,50Hz**
- **Cable length** : **2.5 Meter**
- **Motor** : **28000 RPM/1000w**
- **Machine weight** : **5.0 Kg Portable**
- **Performance warranty** : **1 Year**
- **Phase** : **Single Phase**
- **Silicon Tubing** : **Compiles to FDA**
- **Mechanical Timer** : **60 minute (External)**
