

QUACHEM
Chemicals & Solution Providers

PRODUCT DETAILS: **VETASIL-AG**

Dear Reader,

Greetings from QUACHEM CHEMICALS AND SOLUTION PROVIDERS !!!

In this mail, we are going to see the veterinary benefits of our product: VETASIL-AG.

Here's what we have for you.

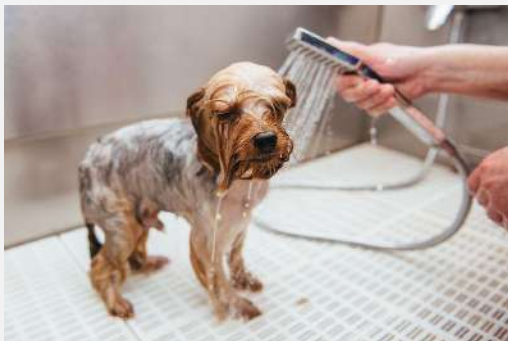

WATER DISINFECTION

- VETASIL-AG is a silver hydrogen-based disinfectant.
- The water needs to be disinfected using VETASIL-AG then the water is safe for the animals to drink.
- This product is used mainly in agriculture, poultry, etc by spray disinfection method.

BODY WASH DISINFECTION

- VETASIL-AG can also be used for bathing water disinfection by adding 1ml in 1 litre of water.
- VETASIL-AG will kill all types of viruses and bacterias and will do no harm to animals

FOODER DISINFECTION

- VETASIL-AG can also be used as spraying disinfection.
- VETASIL-AG needs to be diluted and can be sprayed over fodder (food for animals) and make it safe and bacteria free for the animals to consume.

LUMPY COW DISEASE DISINFECTION

- Farm Quarantine : Use 5% solution of VETASIL-AG (Add 50 ml added to 1000 ml) of water and sprayer inside the farm.
- Animal Body Disinfection : Use 200 - 500 ppm of solution for body bath.
- Drinking Water Disinfection : 20-30 ppm solution of VETASIL-AG. This disinfectants the water and also lower contamination in GI tract.

And it doesn't end there!
